## FOREWORD

The works listed in the present publication are those classed under Subject Bibliography, or bibliography of works treating of special topics. The titles of books classed under the bibliography of science and technology have not been included, as they do not fall within the present scope of the Library. The list complements Part I, already issued, and completes the survey of the Library's collection of books relating to the Book Arts.

Two indexes are appended, (1) Author and title index, titles being indexed only when the work is entered under the title, (2) Subject index, including topics, names of countries, cities and other localities, and names of persons when those persons form the subject of bibliographies.

An explanation of the symbols used and a list of abbreviations will be found in Part I, p.xi-xii.
